

# JABIL TISZAÚJVÁROS

OPERATIONAL EXCELLENCE IN  
THE EUROPEAN MARKET

# JABIL

Located just 170 km from Budapest, Jabil's site in Tiszaújváros is a key player in the electronic manufacturing industry in Hungary. It is the largest company in the northern region of the country producing best-in-class, complex products for some of the world's most well known and respected companies. With 583,000 square feet of manufacturing space, operating 24 hours a day, seven days a week, a proven record of successful new product introduction, dedication to quality and continuous improvement and engaged employees, Jabil Tiszaújváros continues to expand capabilities and provide customer solutions to ensure their customers' success.

Since its inception in 2000, Jabil's Tiszaújváros site has produced over 190 million units for customers in industries, including:

- Automotive
- Computing and Storage
- Telecommunications
- Industrial and healthcare

As with all Jabil locations, the Tiszaújváros site has implemented Lean manufacturing principles and Six Sigma methodologies, decreasing waste and defects while optimizing total landed cost. In fact, the Tiszaújváros team has one of the highest ratios of Kaizen events per employee at Jabil. The site also ensures strict compliance to the highest environmental standards and has received several social and environmental responsibility awards for its efforts.

## Jabil Tiszaújváros

### About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well-known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.

### Manufacturing Capabilities

- Build-to-Order
- Configure-to-Order
- Direct Fulfillment
- 17 Surface Mount Technology Bays
- Flex Line Solutions
- 70 Back-End Cells
- Ball Grid Array
- Sub-Assembly
- Full-System Assembly
- Automation solutions

### Supply Chain Services

- Competitive Material costs  
Global Sourcing
- Consigned Inventory Model
- X- Docking Services
- Customs Procedures:
- Simplified Customs Clearance =  
AEO Certification
- Inward Processing

- End-Use Control
- Temp Admission
- Process Under Customs Clearance
- Bonded Warehouse
- Wide range of Logistic Providers
- Direct Deliveries

### Commitment to High Quality

#### Certificates and Registrations

- ISO 9001 – July, 2001
- ISO 14001 – June, 2002
- TL 9000 – June, 2011
- ISO/TS 16949 – March, 2003
- ISO 13485 – November, 2006
- OHSAS 18001 – January, 2007
- ESD IEC 61340-5 – October, 2008
- AEO certification – May, 2011
- Known Consignor – October, 2014
- SHIBA Award - June, 2009
- National Quality Award -  
November, 2009
